

# DAVID HELLA

## *Hair Design*

*To whom this may concern,*

My name is David Hella, from David Hella Hair Design. I have been in the business for over 20 years and when I met Gen from Genie in a Nutshell, I was finally to offer a solution to my customers who are struggling with thin hair.

The hair tonic that I got from Gen provides fantastic results with those customers that have tried every other product under the sun. The water based solution doesn't make the hair greasy which is a positive when you are already struggling to get some volume.

The customers that have been using the tonic, have noticed a major difference, even after 1 month of using the tonic. I can therefore highly recommend the hair tonic to my peers.

*Kind regards,*

*David Hella*
